## Data sheet

### System

#### CPU

Processor: VIA

#### System Memory

Size: 256 MB

Storage: 2 GB Disk-on-Module

#### Onboard Graphics Features

Graphic chip: Integrated VIA graphics chip

Graphic resolution: Up to 1280 x 1024 via VGA signal

#### Onboard Audio Features

Audio chip: AC'97 Codec Audio

#### Onboard LAN Features

LAN chips: 1 Fast Ethernet Controller 100 Mbit

Cooling: passive cooling - no Fan

### Rear Panel I/O

USB: 6 USB 2.0/1.1 ports (4 x rear panel, 2 x front panel)

LAN: 1 RJ45 LAN port

Serial / COM Port: 1 RS232 9 pin D-sub serial port

Monitor: 1 VGA 15-pin D-sub

Sound jack: 1 sound jack for speakers or audio-out

Microphone jack: 1 microphone jack (for future options)

Kensington: 1 Kensington lock slot for theft protection

PS2 keyboard: 1 PS2 keyboard connector

PS2 mouse: 1 PS2 mouse connector

Power plug: 1 connector for external power supply

### Power adapter

Input AC voltage: 110 ~ 240V AC, 50 - 60 Hz

Average power consumption: 22 W

Operating temperature: 0 ~ 38° C

### Options

Internal Storage 4 GB Disk-On-Module

### Housing

Size: 213 x 45 x 200 mm (W x H x D)

Weight: 2.8 kg

EMI/EMS: Meets FCC class B, CE

Safety: Meets GS

### Software

DMP Digital Media Player

## DMP Digital Media Player Software

The integrated Digital Media Player (DMP) software can be managed and controlled via network by our Digital Media Server (DMS), a WEB-based Content Management System or can be operated without any network where playlists and content can be loaded with a USB stick. DMP automatically synchronizes with DMS the content, and play-out scheduled playlists. It supports full screen and multi frame (multi zone) layouts. Depending on what 3rd party applications you will install on your DMP (Media Player, Flash Player, etc...), you can mix various content elements such as video files, video live streams, audio files/streams, flash animations, pictures/stills, rolling text tickers, RSS news feeds, HTML pages, simultaneously on the connected screen (every display, projector, video wall with DVI input is supported). DMP supports advanced play-out reporting for customer billing and player alert reporting for smooth 24/7 operation.
