

# DMP 6700/6800 Digital Signage Player

## Versatile, Powerful, and Small Footprint

The DMP 6700 (Celeron M) and DMP 6800 (Core 2 Duo) models are powerful but small footprint Digital Signage Media Players (DMP) for network controlled or stand-alone operation via USB stick content loaded. Reliable and robust for 24/7 operation, it can support 2 GB Flash Disk or any 2.5" 44 Pin Slim Line HDD. Supporting a multi zoned payout on a DVI output for a variety of displays such as TFT screens, LCD TVs, Plasma TVs, and Projectors. The DMP Software also supports 90° screen rotation for portrait mode. Content payout such as Videos, Stills, HTML, Flash, News Ticker, within the local network is supported as well as optional extensions for Wireless LAN or TV Tuner via USB port.

## Data sheet

### System

#### CPU

Processor: DMP 6700 Intel® Celeron M  
DMP 6800 Intel® Core 2 Duo

Chipset Intel® 945GM&ICH7-M

#### System Memory

Size: 512 MB

Storage: 2 GB Disk-on-Module

#### Onboard Graphics Features

Graphic chip: Integrated Intel® 945GM MCH

Graphic resolution: Up to 1920 x 1080 via DVI

#### Onboard Audio Features

Audio chip: AC'97 Codec Audio

#### Onboard LAN Features

LAN chips: 1 Marvell 88E8056-A2 Fast Ethernet Controller 100 Mbit

Cooling: CPU Fan

### Rear Panel I/O

USB: 6 USB 2.0/1.1 ports (4 x rear panel, 2 x front panel)

LAN: 1 RJ45 LAN port

Serial / COM Port: 2 RS232 9 pin D-sub serial port

Monitor: 1 DVI

Sound jack: 1 sound jack for speakers or audio-out

Microphone jack: 1 microphone jack (for future options)

Power plug 1 connector for external power supply

### Power adapter

Input AC voltage: 110 ~ 240V AC, 50 - 60 Hz

Average power consumption: 24 W - 31 W

Operating temperature: 0 ~ 38° C

### Options

Internal Storage 4 GB Disk-On-Module or 80 GB 2.5" HDD

### Housing

Size: 213 x 45 x 200 mm (H x V x D)

Weight: 2.8 kg

EMI/EMS: Meets FCC class B, CE

Safety: Meets GS

### Software

DMP Digital Media Player

DMX (optional) Digital Media Server Lite + Digital Media Player (see DMX product line)

## DMP Digital Media Player Software

The integrated Digital Media Player (DMP) software can be managed and controlled via network by our Digital Media Server (DMS), a WEB-based Content Management System or can be operated without any network where playlists and content can be loaded with a USB stick. DMP automatically synchronizes with DMS the content, and play-out scheduled playlists. It supports full screen and multi frame (multi zone) layouts including 90° rotated portrait mode with high quality DVI digital output. Depending on what 3rd party applications you will install on your DMP (Media Player, Flash Player, etc...), you can mix various content elements such as video files, video live streams, audio files/streams, flash animations, pictures/stills, rolling text tickers, RSS news feeds, HTML pages, simultaneously on the connected screen (every display, projector, video wall with DVI input is supported). DMP supports advanced play-out reporting for customer billing and player alert reporting for smooth 24/7 operation.
