

Press release

Stinova presents its Digital Signage Solutions at IBC 2010 in Amsterdam

10.09.2010 - Stinova Ltd. a leading global provider of Digital Signage and WEB CMS Solutions will showcase its Digital Media Server (DMS) Software and Digital Media Player (DMP) Software solutions at the upcoming IBC show in Amsterdam from September 10 to 14.

Stinova provides a complete line-up of solutions to enable Digital Signage Network Operators, addressing retail, hospitality, education, corporate TV and other market segments to distribute and play-out content at pre-defined schedules. The DMS 4th generation is supporting a vast number of play-out devices from the simple Compact Flash Players, Digital Name Tags, Nano-Kiosk devices up to network connected PC Players. Stinova also demonstrates Intel's latest Digital Signage Player reference design based on Core i5™ technology. The integration of advanced IPTV technologies with Stinova's s-cube TV Streamer and IPTV Set Top Boxes is a perfectly suited for the hospitality industry.

You can visit Stinova's booth DS14 in the Digital Signage Zone, Hall 9 to see demonstrations of amazing 3D Signage without the need for special glasses, the intuitive DMS4 CMS and a multitude of supported Digital Signage Player devices.

Stinova Ltd. develops the core software technologies that power the worlds Digital Signage networks. These core technologies address all aspects of Digital Signage delivery from stand alone systems to dynamic Digital Signage Networks. Stinova's IPTV products seamlessly integrate LiveTV and other Video Streams up to HDTV into multi-media Digital Signage content. For more information and product details please visit: www.stinova.com
